

KAPAL API GLOBAL OFFICE

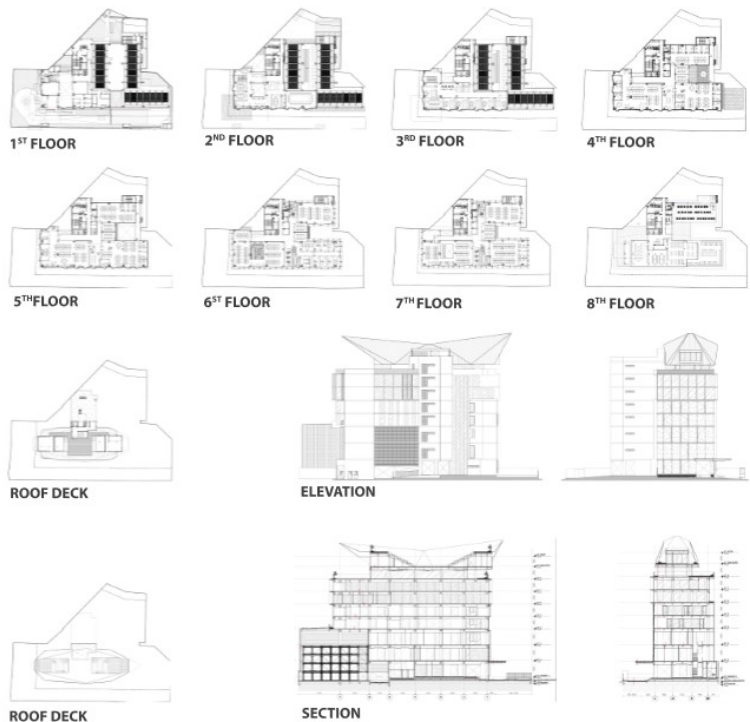

LOBBY

LOUNGE

LOBBY

The concept of open space, flexibility and luxury are implemented in the design of Kapal Api Global office building whereas the flexible and open atmosphere create a comfortable and dynamic environment but not limiting the exclusivity and classic impression through a sense of design in every space throughout this building.

Everyone who enters the building is greeted by a lobby that designed with a different and unique approach by emphasized the impression of luxury and artistic through abstract arrangement of wooden panels which is not only aesthetically pleasure but also give the impression of lightness while functioning as an acoustic element that creates a comfortable and joyful experience for every visitor. The lobby is not only a place to welcoming guests but also as a symbol of appreciation for creativity and innovation.

KAPAL API GLOBAL OFFICE

Kapal Api is not just a company that focuses on manufacturing, but has expanded into the realm of lifestyle. With a variety of products that are not only have high quality, Kapal Api has integrated aesthetic value and comfort in every aspect. From appetizing coffee to various products that reflect modern trends and needs, Kapal Api keeps innovating to become an essential part of its consumers' daily lives, making it more than just a brand, but a dreamed lifestyle.

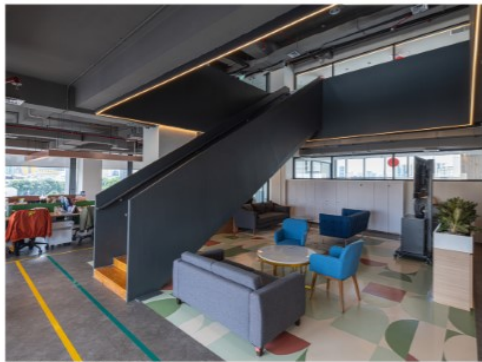

Therefore, we focus on designing spaces that reflect on Kapal Api identity as part of the modern lifestyle.

COMMUNAL SPACE

OUTDOOR AREA

COMMUNAL SPACE

WORKSPACE

LOUNGE

The spaces are designed with a sense of freedom, reflected in the various ambiances, shapes and colors, allowing everyone to choose a corner that suits their personality. This flexible design also encourages freedom of expression, allowing people to work in comfort and productive and with a wide selection of angles and ambience options, each person can find a place that will support their creativity and performance, creating a harmony and inspiring work environment.

In designing this building, consideration of the connection between indoor and outdoor spaces become priority. Each interior element is designed to create harmony with the exterior environment, creating visual and functional harmony. By combining natural elements, natural lighting, and easy access to outdoor areas, the inner space feels more spacious and connected to the outside world. This approach not only enhances the aesthetics aspect but also creates a cozy and refreshing atmosphere, allowing people to feel close to nature while still enjoying the comfort of the indoor space.
