

PAGI SORE

"THE SPICE JOURNEY THROUGH SPACE"

Project Scope : Architecture, Interior, Special Lighting,
Landscape, and Artwork
Rooms : Outdoor dining, Main dining, VIP dining,
Musholla, Corridor, & Public toilet
Category : New Construction
Duration : 2021 - 2023
Location : Bogor City, West Java, Indonesia

Pagi Sore, a renowned restaurant established in 1973, stands as a testament to the enduring richness of Minang cuisine. To **encapsulate the essence of the cultural heritage**, the designers transform the space into a spatial narrative of **Minang artistry** through a harmonious blend of architecture, interior design, and landscape design.

Dynamic lighting and the artworks further enhance the ambiance, where Hadiprana's craftsmanship breathes life into the bespoke space. The space becomes a **dynamic dialogue between tradition and contemporary design**, showcasing the rich heritage in a modern context.

PAGI SORE

"THE SPICE JOURNEY THROUGH SPACE"

The restaurant's design is a ***captivating fusion of Bogor's colonial heritage and rich cultural elements***. Nestled within an area where Dutch architecture once held sway, the building's facade echoes this era with its graceful ***arches*** and intricate latticework in the interior. Drawing inspiration from the region's iconic landmarks and natural wonders, each artwork is a poetic narrative.

The regal symbolism of Bogor Palace, the Mega Mendung cloud pattern, meticulous attention to detail, until the mosaic tiles to the lighting fixtures, further enhances this immersive experience, creating an ambiance that is both ***nostalgic and contemporary***.
