

EXCELSO SOCIETE

SURABAYA

Societe is an elevated concept from Excelso, distinguishing itself from the current Excelso coffee shop brands. The venue offers a more diverse selection of food and drinks, catering to a wide range of tastes and preferences. One of the standout features is the manual coffee brewing station, where coffee enthusiasts can savor the art of brewing their perfect cup. This hands-on experience adds a personal touch, making each visit unique and memorable.

The design of Societe is thoughtfully crafted to provide a variety of seating options. Semi-outdoor and outdoor spaces are available, allowing customers to choose their preferred environment. Whether you enjoy the fresh air or a more sheltered setting, Societe has a spot for you. These areas are designed to blend seamlessly with the interior, creating a cohesive and inviting atmosphere.

For those seeking privacy, Societe offers three private dining rooms on the mezzanine level. These rooms are equipped with blinds, ensuring that guests can enjoy their meals or conduct business meetings without interruptions.

The facade of Societe features secondary skin elements that provide shading against the afternoon sunlight. This design choice not only keeps the interior cool but also maintains visual transparency, allowing natural light to filter through without compromising comfort. The interplay of light and shadow adds to the dynamic and welcoming ambiance of the space.

Inside, the staircase void is adorned with playful elements that enhance the decor and encourage interactivity among customers. These features create a sense of fun and engagement, making Societe more than just a place to eat and drink—it's an experience. The angular lines inspired by the iconic 'X' from the Excelso Coffee logo are evident throughout, creating cozy nooks and intriguing pathways.

As the flagship store of Societe, this space embodies the essence of Excelso's brand. The walls wear a textured coat—a blend of earthy browns reminiscent of freshly ground coffee beans. Turquoise accents ripple through the space like a tranquil stream, mirroring the color of water. The aroma of freshly brewed coffee mingles with the gentle hum of conversation. Sunlight filters through geometric windows, casting playful shadows on the floor, creating a warm and inviting atmosphere.
