

# ARKADIA WORKS

## HOUSE OF INNOVATION

The Arkadia Works HQ embodies the "House of Innovation" concept, designed to foster an inspiring, dynamic, and collaborative environment that stimulates innovation and creative thinking. Characterized by vibrant colors, imaginative use of materials, and repurposed artworks, the design merges functionality with artistic expression, making creativity an integral part of the workplace DNA while promoting sustainability through reduced waste and reclaimed elements.

Arkadia Works is an interior design firm based in Jakarta, Indonesia. With the vision of "Making The Great Workplace To Work."

# ARKADIA WORKS

## HOUSE OF INNOVATION

Arkadia Works HQ proudly honored international recognition by winning the Asia Pacific Property Awards 2025 in the "Office Interior Indonesia" category. The project also earned the prestigious EDGE (Excellence in Design for Greater Efficiencies) Green Building certification from the International Finance Corporation (IFC). These achievements highlight the company's commitment not only to exceptional design quality but also to sustainability standards rooted in measurable environmental responsibility.

The headquarters integrates creativity and sustainability, merging functionality with artistic expression to create a space where innovation grows. Workspaces are open and flexible to enhance collaboration, efficiency, and creativity. The Reception Area combines bright colors and wooden accents, complemented by recycled materials. Meeting Rooms feature rounded designs for dynamic impressions, while the Collaboration Area uses flexible furniture that transforms into a versatile town hall setting.
