DESIGN CONCEPT

OFFICE DESIGN

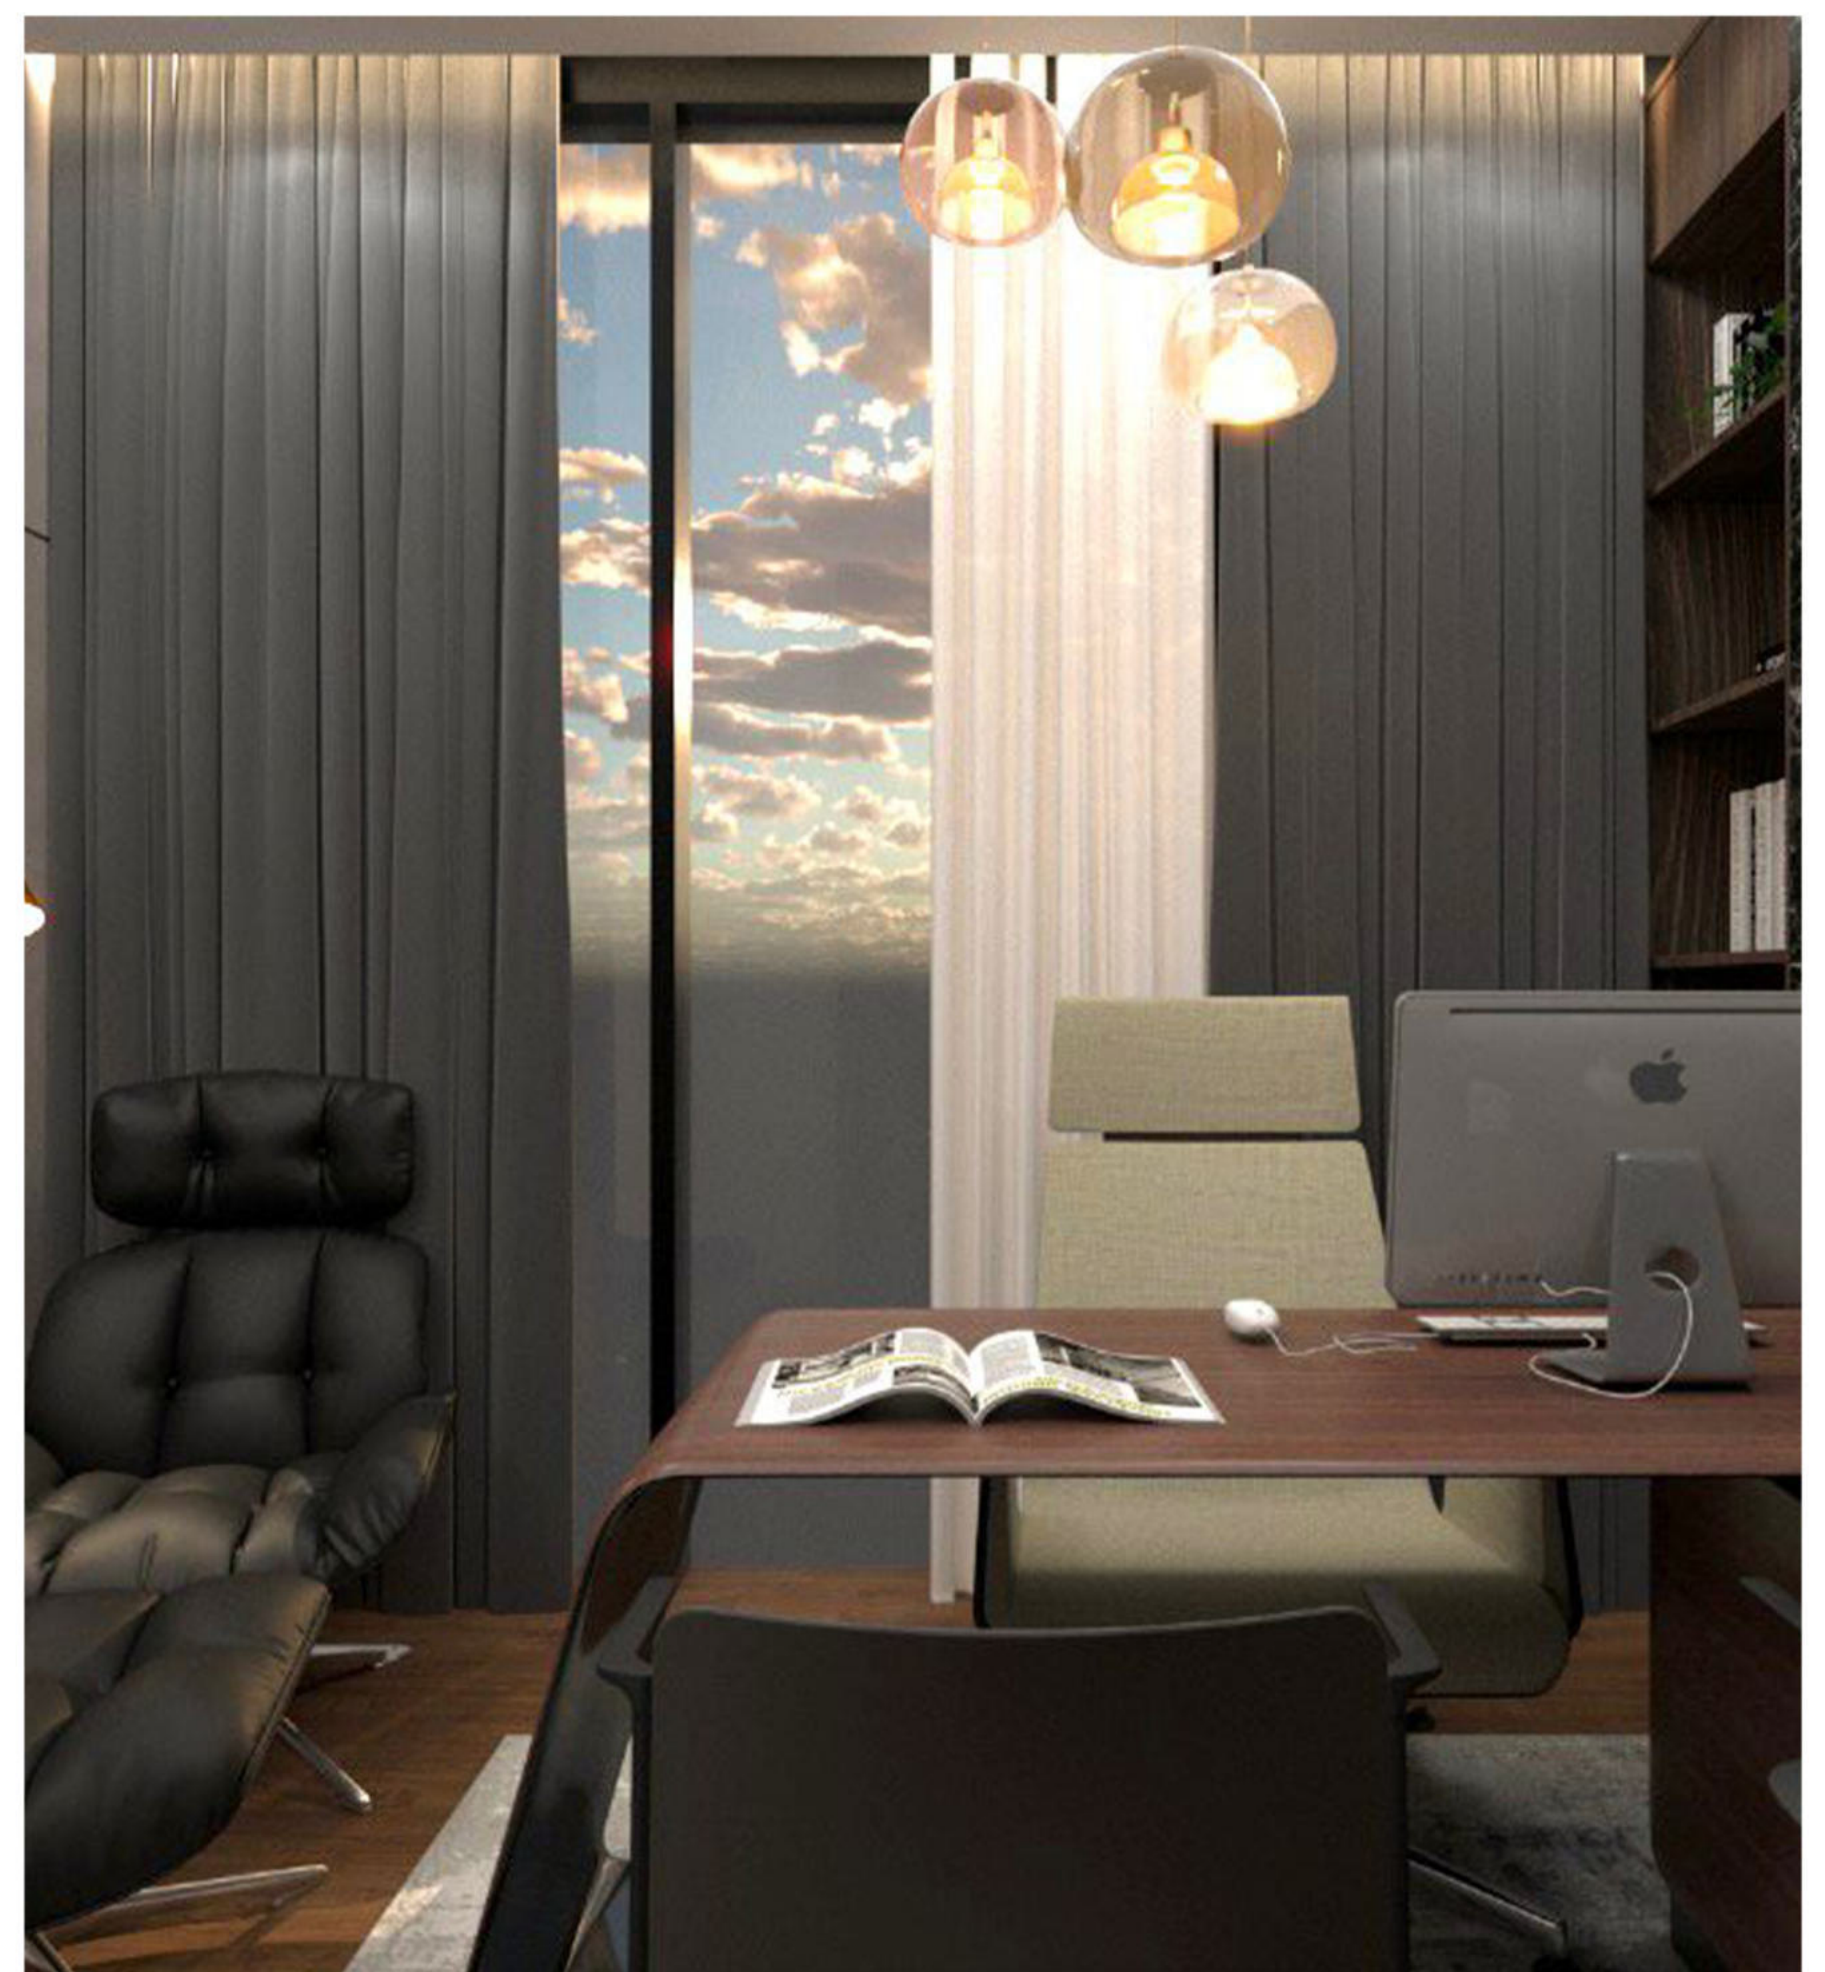

A modern biophilic design that harmonizes contemporary design with natural elements. This style emphasizes clean lines, functionality, and natural materials such as wood, stone, and living green elements. Neutral colors are combined with green accents and natural lighting to create a healthy and refreshing work environment.

Each space is designed to promote comfort and productivity, reflecting the identity of PLN UIP JBB as a modern institution committed to sustainability. This concept supports PLN's vision of creating an inspiring, efficient, and environmentally friendly work environment that leaves a positive impression on everyone who visits.
